

Practice Tips

If you're having trouble with a piece, try following each of these practice steps in the order listed.

1. Refer to your assignment book for specific practice instructions.

2. Practice SLOWLY.

3. Practice hands separately.

4. Practice one measure or phrase at a time.

5. Play a song you already know and then come back to the one with which you're having trouble.

6. Call me and we'll discuss the difficulty.

7. Put the piece aside until your next lesson when we can go over it together.
